

Dear Patients:

It is with mixed emotions that I write to share that I will be semi-retiring from active medical practice, effective August 1, 2026. After 44 years of practicing medicine and 35 of those years at Northwest Eye Surgeons, stepping away is a difficult choice. Caring for you and your family has been one of my greatest privileges.

I will continue to work a few hours per week. However, if you would prefer to transition your care to another provider now, our office will make your records available. If you would like to continue your care at Northwest Eye Surgeons, we have several excellent physicians who can provide the same excellent care you have come to know and appreciate.

Dr. Tyler Greenlee joined our group in September 2024 and is a general ophthalmologist. Dr. Louis Hirsch will join our group in August 2026 from Springfield, Missouri. He is a fellowship-trained glaucoma specialist and will also accept general ophthalmology patients. If you choose a doctor outside our practice, we will need your signed written permission to transfer your records.

Thank you again for the trust, kindness, and wonderful relationships we have shared over the years. I wish you the very best in health and happiness.

Sincerely,

Dan Brown, MD
